List of Parcels with Largest Impervious Areas
and Annual Fees Based on Impervious Area Only

Important Note: The rate structure shown assumes all parcels pay the same rate for impervious area, low percent impervious parcels and high percent impervious parcels pay the same rate. This rate structure could change so that the rates for lower percent impervious parcels become less and the rates for higher percent impervious parcels become more.				
Important Note: The rates shown for parcels located within ACWWA are more than 2 times as high as their existing rates for stormwater.
