WHEREAS, Resolution 24-10 established the design budget for the Project to be \$98,447, which included 10% contingency; and

WHEREAS, the scope of the design needs to be amended to include the final engineering design and permitting services required to construct the Project; and

WHEREAS, the cost for the additional engineering services for the Project is estimated to be \$151,059; and

WHEREAS, it is typical to budget the engineering design amount plus an additional ten (10) percent (\$15,106) to cover contingencies that may be encountered during design; and
