RESOLUTION 17-22

Authorization to Fund the Design of the Little Dry Creek Stream Stabilization
Downstream of Arapahoe Road

WHEREAS, the need for the Little Dry Creek Stream Stabilization Downstream of Arapahoe Road (Project) is identified in the 2009 “Willow Creek, Little Dry Creek and Greenwood Gulch Outfall Systems Planning Study” report; and

WHEREAS, the Project reach has accumulated sediment along the reach, has eroded, and includes two outfalls in need of realignment; and

WHEREAS, the Project reach is directly downstream of the Arapahoe Road culvert and pedestrian underpass, which is inundated with sediment from frequent runoff events; and

WHEREAS, the Project will modify the typical channel section along the entire reach, modify the vertical alignment, stabilize the banks, and improve the condition at the downstream end of the pedestrian underpass; and

WHEREAS, the cost of the engineering design and related services for the Project has been estimated to be \$92,300; and

WHEREAS, SEMSWA has adopted a budget for calendar year 2017 subsequent to public hearing, which includes funds for the design of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into contracts on behalf of SEMSWA for the design of the Project.
2. The funding for the Project is limited to \$92,300 without prior approval of the Board.
