RESOLUTION 15-10

Authorization to Fund and Award Contracts in Regard to
the Construction of the S. Vincennes Way and E. Mineral Dr. Pipe Replacement

WHEREAS, field and video inspections of the existing corrugated metal storm sewer pipe running westward from the intersection of E. Mineral Dr. and E. Mineral Circle (just south of the intersection of S. Vincennes Way and E. Mineral Dr.) indicate that the pipe has deformed and severely deteriorated; and

WHEREAS, continued deterioration of the pipe and its failure would have a significant adverse impact on the welfare of the general public and the function of the storm sewer system; and

WHEREAS, SEMSWA staff has determined that the most cost effective approach to correcting this deficient storm pipe is to remove and replace it with a new pipe; and

WHEREAS, the design of the Project is complete; the bidding process for the construction of the Project has also been completed; the lowest responsible bidder has been selected; and

WHEREAS, the selected bid for the construction of the Project is \$74,281.00 submitted by Naranjo Civil Constructors, Inc.; and

WHEREAS, Advanced Drainage Systems Inc. has agreed to supply the 30" N-12 pipe to be used for the project at a cost of \$10,800.00; and

WHEREAS, SEMSWA has estimated the cost of contracting for materials testing, construction engineering services, and survey services during construction at \$5,000.00; and

WHEREAS, it is typical to budget the construction bid amount plus an additional ten (10) percent (\$8,500.00) to cover contingencies that may be encountered during construction; and

WHEREAS, SEMSWA has adopted budgets for calendar year 2015 subsequent to public hearings, which include funds for construction of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into a contract in the amount of \$74,281.00 with Naranjo Civil Constructors, Inc. on behalf of SEMSWA for the construction of the Project.

2. The Executive Director is authorized to enter into contracts with Ground Engineering Consultants and expend an amount not to exceed \$5,000.00 for materials testing associated with the Project.
3. Total funding for the construction of the Project, including contingency and costs associated with services for construction engineering services, survey services and materials testing is limited to \$98,581.00 without prior approval of the Board.
