RE: Comments Presented During the
Board of Directors Meeting of December 19, 2007

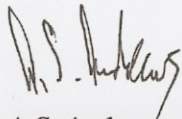

Dear Board Members:

My name is A.S. Andrews and I am a resident of the City of Centennial. In the interest of full disclosure, I am the founder of WRC Engineering, Inc. and currently am on a semi-retired status. I am here today not as a representative of WRC, but rather as a taxpayer and equally important, as a customer of SEMSWA.

The perception, whether real or not, is that SEMSWA is spending and wasting a great deal of money. Further, that the practices used by SEMSWA to engage services from different vendors are not balanced and are tilted in favor of large national firms.

Before approving any further new expenditures, I would like to ask the Board to investigate these perceptions by appointing an impartial committee to look into these serious matters. Further, I would like to ask that a copy of this letter be made a part of the minutes of this meeting for future reference.

Thank you
