RESOLUTION 12-26

Authorization for the Funding of the Construction of the Rehabilitation of the Culverts
at Arapahoe Road and Fairfax Street

WHEREAS, field inspections of the three existing corrugated metal culverts under the Arapahoe Road pavement immediately east of Fairfax Street have indicated that the pipes have severely deteriorated and that all of the pipes have deformed; and

WHEREAS, continued deterioration of the culverts and failure of the overlying pavement would have a significant adverse impact on the safety and welfare of the general public; and

WHEREAS, SEMSWA staff has determined that the most cost effective approach to correcting these deficient culverts is to rehabilitate them using the cured in place pipe (CIPP) process; and

WHEREAS, SEMSWA staff has completed the rehabilitation design and the bidding process for the Construction of the Rehabilitation of the Culverts at Arapahoe Road and Fairfax Street (Project), and the lowest responsible bidder has been selected; and

WHEREAS, the selected bid for the construction of the Project is \$203,482 submitted by Western Slope Utilities, LLC; and

WHEREAS, it is typical to budget the construction bid amount plus an additional ten (10) percent to cover contingencies that may be encountered during construction; and

WHEREAS, the total construction cost of the Project, including a ten (10) percent contingency and miscellaneous costs is \$223,830; and

WHEREAS, SEMSWA had adopted a budget for calendar year 2012 subsequent to public hearing, which includes funds for construction of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into a contract in the amount of \$203,482 with Western Slope Utilities, LLC on behalf of SEMSWA for the construction of the Project.
2. The funding for the construction of the Project is limited to \$223,830 without prior approval of the Board.
