WHEREAS, the cost of the engineering design and other design related services for the Project has been estimated to be \$192,000.00; and

WHEREAS, SEMSWA has adopted a budget for calendar year 2012 subsequent to public hearing, which includes funds for the design and construction of the Project.

3. The Executive Director is authorized to enter into agreements with the APRD to secure funds from the APRD for the design and construction of the trail related components of the Project.
