SEMSWA WATER ACTIVITY ENTERPRISE

RESOLUTION 25-16

Authorization to Enter into an Engineering Services Agreement for the Design of  
Dove Creek Jordan Road Storm Sewer Improvements

WHEREAS, the Dove Creek Jordan Road Storm Sewer Improvements (the Project) was identified due to observed flooding of South Jordan Road at East Hinsdale Drive in 2023; and

WHEREAS, the Project is located at the Southwest corner of Jordan Road and Fairplay St. within undeveloped properties adjacent to SEMSWA's Office; and

WHEREAS, a hydrologic and hydraulic analysis was performed to confirm that there is currently insufficient capacity to receive the stormwater flows; and

WHEREAS, the master plan anticipates that future storm sewer infrastructure will be constructed with future development to address stormwater flow capacity; and

WHEREAS, the Project will provide interim capacity and routing of stormwater flow to existing storm sewer infrastructure to help mitigate flooding of South Jordan Road; and

WHEREAS, the cost of the engineering and other design-related services for the Project has been estimated to be \$58,000; and

WHEREAS, it is typical to budget the engineering design amount plus an additional ten (10) percent (\$64,000) to cover contingencies that may be encountered during design; and

WHEREAS, SEMSWA has adopted a budget for calendar year 2025 subsequent to public hearing, which includes funds for the design of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Board authorizes the Executive Director to enter into contracts on behalf of SEMSWA for the design of the Project.
2. The SEMSWA funding for the Project is limited to \$64,000 without prior approval of the Board.
